

Deputy Chief, Materials Division, ORR

20 June 1957

Chief, Ferrous Metals Branch, ORR

Evaluation of [REDACTED] 25X1X7

25X1X7

1. An evaluation of [REDACTED]
[REDACTED] follows:

25X1X7

a. General Value to FM.

25X1X7

The information contained in [REDACTED] while perhaps timely at the date of publication [REDACTED] has little value when received in the Ferrous Metals Branch because of the delay in transmittal. Except in a very few instances, the articles extracted have been received at an earlier date and usually in more detail from publications of FTD and from press despatches of US diplomatic posts.

25X1X7

b. Amount of Information that is New.

25X1X7

The list of books which precedes the body of [REDACTED] Summary, occasionally provides a lead to a worthwhile publication which otherwise might have been missed.

c. Suggestions, if any, on Format.

No suggestions.
